THE THIRTY-EIGHTH ANNUAL REPORT.

OF THE

BOARD OF MANAGERS

OF

ST. LUKE'S HOSPITAL, NEW YORK.

FROM

OCTOBER 18, 1895, TO SEPTEMBER 30, 1896.

This has been an eventful year in the annals of St. Luke's, for in it occurred the abandoning and tearing down of the old hospital, the completion of the sale of the larger portion of its site, and the transfer of the work to the new site and buildings on Cathedral Heights.

Preparatory to removal, announcement was made some months before then, that no patients would be received after January 1, 1896. Consequently there remained on January 24, 1896, only thirty-eight patients, and, through the admirable arrangements for the purpose made and directed by the Superintendent, all of these were on that day carried from the old to the new hospital without accident or any injurious result, which was extremely gratifying to the Managers, and alleviated somewhat the pain with which they abandoned a location and structure about which centred so many endearing and valued associations connected with Doctor Muhlenberg, and the work founded and developed there under his supervision, and the influences which have survived him.

The objection to the title of St. Luke's made on the part of purchasers having been overcome by releases from the Church of St.

George the Martyr, and the City, and by an Act of the Legislature passed February 26, 1896, all of the sales of the old site thus far made have been closed, leaving undisposed of only five lots on the corner of Fifth Avenue and 55th Street, and two lots on 55th Street at the westernmost end of the property.

Through these sales all the money borrowed for the construction of the new buildings has been repaid, and the Corporation is now free from debt.

The proceeds of a sale of the remaining lots will doubtless make the endowment fund larger than ever before, but it will still be inadequate for an income sufficient to meet the present current expenses, likely to grow larger from increase in the number of patients, and from the cost of the care of each patient being constantly augmented by the greater amount of nursing, and by expensive preventives and remedies, demanded by the improved methods in medicine and surgery.

This is mentioned lest it be assumed that St. Luke's does not need further endowment. It does need it, and immediately, if it is to be worked to its full capacity.

On the 28th of October, 1895, the following preamble and resolutions were unanimously adopted by the Board of Managers:

"WHEREAS, throughout Europe and in this country, there is constantly increasing interest manifested in pathology, on the part of the medical profession and other scientists, and an expectancy by the people at large of results from pathological investigation which will lead in far greater degree than has yet been achieved to the prevention and cure of disease; and

"WHEREAS, thus far no adequate opportunity has been offered in this country for conducting such investigations upon a liberal and methodical scale under the auspices of a corporation, and there is reason to expect that with such opportunity the wonderful progress of the medical profession in the United States, in surgery, in the use of anæsthetics, and in antiseptic treatment, within the last twenty-five years, will be repeated in pathology during the early future; and

"WHEREAS, St. Luke's was the pioneer in the private hospital work of this country, and may now well take the lead in providing thorough facilities as regards location, buildings, apparatus, and skilled men for pathological investigations, and in securing for mankind the benefits to follow such investigations, therefore

"*Resolved*, That the matter of the completion of the proposed pathological building, and its equipment, be referred to the Building Committee with power.

“Further resolved, That in the opinion of this Board an endowment of not less than \$200,000 should be obtained and set apart for the endowment of the pathological department, and that special gifts should be obtained, if possible, for the equipment of this department.”

The interest in pathological work developed by the publication of these resolutions, and information as to the requirements of a building adequate for their realization, have resulted in devoting to pathological work alone the whole of the building originally designed to include as well the stable for the ambulance service. Such stable is now located in a separate structure in process of erection. Invaluable advice and assistance, as to the plans and equipment of the pathological building, and as to the methods for maintaining it at a standard calculated to produce the best results for science and humanity, have been generously afforded by Prof. W. H. Welsh, of the Johns Hopkins University, and Prof. T. Mitchell Prudden, of Columbia, as well as from our own Medical Board; the closing paragraph of the report of Profs. Welsh and Prudden being as follows:

“We wish, in conclusion, to emphasize the importance of the establishment of this foundation on a broad and liberal basis, for it looks toward great accomplishments in its humanitarian as well as in its scientific aspects, and we can conceive of no service at once so needful and so enduring which this organization of St. Luke’s Hospital, with its high and disinterested aims, could accomplish, as those which link together the forces which widen our knowledge of the human body and its diseases, and those which, under stress and misfortune, minister to its imperative necessities”;

while the report of the Medical Board concludes as follows:

“Our Board is deeply impressed with the gravity of this movement, and feels that an opportunity has been presented to give the Hospital a great distinction, and promote the highest scientific work.”

On account of the building being yet unfinished, the hardness of the times financially, and the importance that the scheme for this work should be fully digested and prepared before presented publicly, no effort has yet been made to secure the endowment referred to in the resolutions, but this will not be delayed long, for there is a growing conviction that there is nothing more important connected with hospital work than pathological research by scientists of first rank, devoting their whole time to the subject, in a building constructed for the purpose, furnished with the best equipment that can be produced.

In recognition of the invaluable work of the physicians and surgeons who have contributed so largely and generously to the fame of St. Luke's, and to secure the benefit to be derived from the presence of a representative of their Board in the deliberations of the Board of Managers, the Constitution has been so amended that the President of the Medical Board will hereafter be *ex-officio* a member of the Board of Managers.

Also, in well-deserved recognition of his experience and skill in hospital work, and as a tribute to his devotion to the interests of the institution, the Pastor and Superintendent has been made *ex-officio* a member of the Board of Managers by amendment of the Constitution to that effect.

Provision is being made for opening at once the out-patient or dispensary department, and the ambulance service it is intended to put in operation before the end of the winter, or as soon as the building for this purpose is finished.

The consecration of the Chapel took place on October 17th, and from the fact that its seating capacity was less than 300, the invitations for this occasion, outside of the Board of Managers and the Medical Board, were strictly limited to the clergy of this diocese, and of neighboring cities in Long Island and in New Jersey. Our own Bishop was assisted in the consecration services by the Bishop of Central New York, by the Bishop of Long Island, and by the Bishop of Western Texas. The address was made by the Bishop of Long Island.

The consecration was followed by the dedication of the pavilions, according to a service for each, prepared by the Rev. W. R. Huntington, D.D. The special object of these functions was the consecration of the Chapel and the dedication of the pavilions, but they may be taken also as witnessing that the religious characteristics and obligations of St. Luke's, established by Dr. Muhlenberg, and since pursued, are given foremost recognition, and are not to be departed from.

As soon as the pathological and ambulance buildings are completed, it is intended that there shall be a formal opening of the Hospital, at which it is hoped there will be a general attendance of its friends and benefactors.

The Managers gratefully acknowledge the subscription this year,

for the first time since 1871, of over 100 names for \$100 each to the Century Roll of St. Luke's, inaugurated by Dr. Muhlenberg.

The death of Mr. Edward L. Tiemann, one of the Managers representing the House of Rest for Consumptives, deprived the Board of an associate whose excellent judgment and impartial attention to the interests of both institutions had won universal regard, while the services he largely rendered to other charitable undertakings make his death a severe loss to the community at large.

The fiscal year of the Hospital has been changed to end on September 30th instead of October 18th, in conformity with a law of the State requiring such change.

During the present fiscal year the following sums have been received for the Endowment Fund:

CENTURY FUND.

The "Century Fund" of St. Luke's was inaugurated by Dr. Muhlenberg as a yearly subscription by 100 persons of \$100 each toward supplying the difference between the annual expenses of the Hospital and its income. For a time this Century Fund was maintained at its full number and amount, but through the death of original subscribers, and from an impression which is abroad that, St. Luke's income from endowment having increased, there is not the same need for these contributions, the number of subscribers has gradually diminished. The income, however, has not grown as fast as the expenses; partly because of the steady increase in the proportion of patients with acute diseases and of applicants for free treatment, partly because the Hospital is kept more continuously full.

The work of the Hospital for the past year is found on page 33. The relation of the receipts to the expenditures is found in the Treasurer's Report, page 15.

The number of subscribers last year was 80. This year a special effort was made to complete the roll. A supplementary list of subscriptions, made after the Treasurer's books were closed on September 30th, is appended to the following report, which raises the total number of subscriptions to \$10,200. A list of the subscribers to the Century Fund was placed in the offertory at the consecration of the chapel, October 17, 1896.

A subscription for the current year carries with it no obligation for the next. Subscriptions should be sent to the Treasurer.

REPORT OF THE EXECUTIVE COMMITTEE

ON THE

TRAINING SCHOOL FOR NURSES.

It was stated in the last annual report that the course of instruction in this School had been lengthened from two to three years. This fact, and the facilities offered in this Hospital, have largely increased the number of applications the past year.

Mrs. Lily W. Quintard, late Superintendent of the Connecticut Training School for Nurses in the New Haven Hospital, assumed her duties as Directress of Nurses in the St. Luke's Hospital School on January 1, 1896, and has conducted it with efficiency, and acceptably to all concerned.

Miss Charlotte Edythe Thompson, a graduate of the St. Luke's Hospital School, who was appointed Supervising Nurse in the interim before Mrs. Quintard came, filled this temporary position so well that she was appointed Mrs. Quintard's assistant, and has so continued until the present time.

On October 1, 1896, there were 48 pupil nurses, 9 probationers, and 23 names of accepted candidates on the waiting list awaiting call for duty.

The following outline of class-work for the three years' course has been adopted:

Two months' probation:

Domville's Manual.

Examination.

1ST YEAR.

First three months:

Materia Medica, "Potter."

Pass examination by the Apothecary of the Hospital.

Rest of the year:

Text-Book of Nursing, Clara Weeks Shaw.

Anatomy and Physiology for Nurses, Diana C. Kimber.

Pass 1st Medical examination.
Pass 1st Surgical examination.

2D YEAR.

October to January:

Anatomy and Physiology for Nurses, Diana C. Kimber.

January to April:

Medical cases, Morris.

April to July:

Surgical cases, Gallaudet Jones.

Pass 2d Medical examination.

Pass 2d Surgical examination.

3D YEAR.

Dietetics, practical and theoretical, Mrs. Lincoln's Text-Book.

Massage, practical.

Obstetrics, practical and theoretical.

Children's diseases, Text-Book by C. Alexander Rhodes.

Final examination—theoretical and practical demonstration.

The lecture course, which the doctors kindly deliver to the nurses, without pecuniary compensation, has been shortened, so that hereafter the whole course will be given twice during the three years, instead of once every year, as heretofore.

This course as arranged for the present year is as follows:

DR. ALBERT A. DAVIS, - - - - - October 1, 8.

Choice and care of the sick-room.

Ventilation, temperature, furnishing, arrangement. Use of disinfectants and deodorizers, with special reference to the care of contagious diseases.

pyaemia, erysipelas, tetanus.
- DR. FRANCIS H. MARKOE, - - - - April 15.
Anaesthetics.
- DR. B. FARQUHAR CURTIS, - - - - April 29.
Care of patients before, during, and after operation.
- DR. ROBERT ABBE, - - - - May 6.
Special nursing in cases of laparotomy, tumor, hernia, etc.
- DR. GEORGE A. SPALDING, - - - - May 13.
Special nursing in diseases of the thoracic organs.

A copy of Dr. Ball's lecture on "Duties and Conduct of Nurses in Private Nursing" will be given to each graduate.

During the year 14 nurses have graduated, and all have found immediate employment, either in institutions or in private nursing.

The general spirit of the School is excellent. Owing to the peculiar conditions under which the Training School work has been done the past year, there is a larger proportion than usual of junior nurses, but with the enthusiasm manifested in their studies, and with their desire to be kind, faithful and efficient in the ward work, it is believed that they will maintain the high standard of excellence which has always marked this School, and with the full course of three years' instruction it is expected that this standard will be considerably raised.

CORNELIUS VANDERBILT,
Chairman.

PASTOR AND SUPERINTENDENT'S REPORT.

The work in all departments has been continuous throughout the past year, although necessarily restricted in volume in consequence of the removal. The statistics as to cost, which follow, for the same reason, afford an imperfect basis of comparison with previous years. But the wisdom of keeping intact the organization of house workers during these changes, is manifested, in the speedy adjustment of the work to its new location, and in the ability to care for it during the rapid growth of the service during the last six months. The number of patients is now about as large as the Fifty-fourth Street Hospital ever accommodated, with the prospect of increasing this number in our new home to 300 as rapidly as the means of supporting this increased work is provided.

The last chapel service at the old Hospital was held on the First Sunday after the Epiphany, and it is an impressive fact that the chapel of the new Hospital was first ready for occupancy on February 11th, when it was used for the funeral of Sister Anne Ayres, whose devoted and efficient service to the Hospital during the first twenty years of its existence will ever be held in grateful remembrance.

Since that date the chapel services have been held regularly, and the daily services of prayer and praise in the wards have been re-established as of old. The statistics of pastoral work are as follows:

| | |
|------------------|----------|
| Baptized | 7 |
| Confirmed..... | 26 |
| Marriage..... | 1 |
| Funerals..... | 55 |
| Holy Communion : | |
| In Chapel | 22 times |
| In Wards..... | 48 " |
| In Extremis..... | 29 " |

The Pastor and Superintendent has continued his monthly instruction of the nurses of the St. Luke's Hospital Training School on

the last Sunday evening of each month. The Chaplain, since the removal of the Hospital, on January 24, 1896, has been obliged to discontinue his weekly Sunday evening services at the New York City Training School for Nurses on Blackwell's Island, on behalf of the Guild of St. Barnabas for Nurses.

The General Library for the patients now numbers 3,229 volumes. It is well administered, and thoroughly used. The late Percy R. Pyne, during his life, made several gifts for the replenishment and upbuilding of this library, which has proven of great helpfulness to the workers of the house, and to the patients during their days of convalescence. A fund for replacing worn-out volumes, and for the purchase of new books for this Library, for the Nurses' Library, and for the Medical Library, would be a well-placed benefaction.

The following is

A CONDENSED STATEMENT OF THE AUDITED CHARITY FUND ACCOUNT.

This Hospital has never before called attention to its death-rate, although this, in any past year, can easily be reckoned from the facts published in the annual reports, but, as illustrating the salubrity of the present hospital location, the fact may be noted that the total death-rate the past year was 8 4-10 per cent. Excluding the deaths from tuberculosis, a disease which ordinarily is not received, and treated in general hospitals, the percentage of deaths would be but 4 7-10 per cent.

The total number of transfers during the year was 10, as follows:

CLASSIFICATION, AND COST OF SERVICE.

Estimating the cost of caring for patients in private rooms at \$3 per day, the cost of the service would be

| | |
|--|-------------|
| 2,452 days' Hospital treatment given patients in private rooms at \$3 per day..... | \$ 7,356 00 |
| 44,755 days' Hospital treatment given ward patients.. | 99,811 66 |

|---------------------------|----------|

| | |
|--|------------|
| Leaving profit on this service for the year..... | \$1,073 97 |
|--|------------|

It will be seen above that the house expenses for 44,755 days' treatment given ward patients for the year were \$99,811.66, making the average cost per day *per capita* for ward patients, \$2.23.

This large increase in the *per capita* cost is accounted for by the fact that for more than half the year the work was reduced to the minimum (13,816 days less of hospital care having been given this fiscal year to patients than the last), while the workers were engaged in other employment in putting the new house in order.

MISCELLANEOUS ON PAGE 38..... 2,604 17

Total..... \$107,167 66

As other departments of work are added, such as the Accident Ward, the Out-patient Department, the Ambulance Department, the Bathing Establishment, and the Pathological Department, a larger *per capita* cost than this Hospital has had in previous years may be expected.

With these increased facilities this institution should give better service to its patients than ever before.

From the above classification it will be seen that *the past year* the increased expenditure is due to the heating, lighting and keeping in order of buildings of nearly twice the size of the old Hospital on fifty-fourth Street.

We shall ever keep in mind the two-fold object for which this Hospital exists, and while we do the utmost for the bodies of our patients shall ever faithfully try to minister in Christ's name to the higher needs of their immortal spirits.

GEORGE S. BAKER,
Pastor and Superintendent.

PROSPECTUS OF THE ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES.

The Board of Managers of St. Luke's Hospital, New York, are prepared to give a three years' course of training to women desirous of becoming professional nurses.

As St. Luke's Hospital is distinctively a Church Hospital, and managed by members of the Protestant Episcopal Church, it is essential that all of its workers should be in sympathy with its Christian character.

This announcement is made that there may be no misunderstanding on the part of applicants for the benefits of the Training School for Nurses, as preference will be given to those who are in full accord with the rules, methods, and work established in this Hospital.

Those wishing to receive the course of instruction offered here must apply to the Pastor and Superintendent of the Hospital.

The following information is furnished to candidates desiring admission to the Training School.

Candidates must be from twenty-three to thirty-five years of age. They must be in sound health, and must send, with their application, a certificate from a physician testifying to this fact; also certificates from one or more responsible persons as to their character. These certificates may be addressed "To whom it may concern," but the original certificates (and not copies) must be forwarded, with a letter in the handwriting of the applicant.

A limited number only can be received. The rejection, therefore, of a candidate is no reflection upon the individual's character, neither does it prove her to be disqualified for the work of nursing in other places. The reasons for rejection are not given, neither are letters addressed personally to the authorities of the School returned.

Candidates for probation are not received in classes, but individually, as the work of the Hospital requires. Classes are formed at the convenience of the School.

The names of accepted candidates are placed in order on a "waiting list," to be called for duty as the needs of the Hospital require. When called, they are expected to report promptly and to bring with them the

means of returning to their homes, should they not successfully pass the probationary term.

Any change of plan or of address on the part of a candidate, whose name is on the waiting list, should be immediately reported to the authorities of the School.

When probationers come to the Hospital, they should bring with them the following articles : Boots fitted to support the arch, and at least one inch longer than the foot ; three dresses (gingham or calico) ; six large white aprons (bleached cotton) plainly made ; a good supply of plain underclothing ; two bags for soiled clothes ; one pair of scissors, and a pin ball. Each article of clothing must be indelibly marked with the owner's name.

If the teeth are out of order they must receive attention before coming for the probationary term.

Probationers are boarded, lodged, and have their laundry work done at the Hospital. They receive no other compensation. Twenty-one pieces are allowed for the laundry each week.

Each probationer who passes successfully through two months of trial will then be admitted to the School, and will go on at once with the prescribed course of training.

Pupil nurses at the time of admission to the School are required to sign a written agreement to remain in the School for three years, and to conform to the rules.

The Pastor and Superintendent of the Hospital has charge of the Training School, assisted by the Directress of Nurses, and the nurses are subject to the rules of the Institution. Their fitness for the work and the propriety of retaining or dismissing them at the end of the months of trial are determined by the Pastor and Superintendent, who can in like manner dismiss them at any time in case of misconduct or inefficiency. The nurses reside in the Hospital and serve as assistants in its wards.

All nurses are required to be sober, honest, truthful, trustworthy, punctual, quiet, orderly, cleanly, neat, patient, kind, cheerful, and obedient to rules.

Hours of duty are from 7:00 A.M. to 7:30 P.M. ; night staff, 7:30 P.M. to 7 A.M. Leisure hours : One afternoon, 2 to 8 P.M. ; two hours daily ; Sunday, four hours.

Pupils are required to wear the Training School uniform while on duty after they join the School. Material for dresses will be sold at cost price ; caps are furnished free of charge.

Three weeks' vacation is allowed each year. If pupils are sick they are cared for in the wards of the Hospital, but the monthly allowance is stopped. They may be called upon for day or night duty, or for care of private patients in the Hospital, according to the requirements of the work.

The instruction is given mainly by the Directress of Nurses and by the head nurses. Lectures by physicians and surgeons, and recitations, take

place at stated periods. Examinations by a Committee of the Medical Board, chiefly upon practical points, are held about January 1st, April 1st, and July 1st, of each year.

The religious services of the Hospital are according to the rites of the Protestant Episcopal Church, and the pupils of the School are expected to attend these services regularly. A special course of religious instruction is given each term by the Pastor and Superintendent.

COURSE OF TRAINING.

The instruction includes—

1. The dressing of blisters and burns, applying fomentations, poultices, etc.
2. Cupping, leeching, and subsequent treatment.
3. The administering of enemata and use of female catheter.
4. Management of helpless patients; moving, changing bed and body-linen, giving baths, preventing and dressing bed-sores, and feeding.
5. Antiseptic treatment of wounds.
6. Bandaging, making bandages, covering splints, etc.
7. Cooking, preparing, and serving appropriate food and delicacies for the sick.
8. Massage.
9. Emergencies and how to meet them.

Instruction is given in ventilation and in the proper care of sick rooms and utensils; also in accurate observation of the sick in regard to the state of the excretions, expectorations, pulse, temperature, respiration, action of the skin, eruptions, sleep, mental condition, condition of wounds, appetite, effect of diet, stimulants, medicines, and management of convalescents.

Opportunity is given for training in obstetrical nursing at the "Sloane Maternity Hospital."

Lessons in massage are given by a competent masseuse.

The pupils are employed as assistant nurses in the wards of the Hospital, and they receive ten dollars (\$10) per month during their whole course for uniform and personal expenses. It is considered that the education given during the course is a full equivalent for services rendered.

When the full term of three years is completed, and the pupils are regarded as thoroughly qualified, they receive, if their conduct and examinations have been satisfactory, diplomas certifying to that fact, after which they are at liberty to choose their own field of labor.

The right is reserved by the Pastor and Superintendent to terminate the connection of any nurse or pupil with the School for reasons which may be deemed sufficient.

Each graduate is expected to notify the Pastor and Superintendent, before the 1st of October yearly, of her residence, that her name and occupation may be correctly stated in the list of graduates, and that she may receive a copy of the annual report of the Hospital.

Each graduate registered for private nursing should notify the Directress of Nurses of each change in her home address, as well as the name and address of each patient she engages to nurse, with the name and address of the physician in attendance. When she renews her registry, she should state whether the last case she nursed was of a contagious nature, and what means she has taken to obviate danger to herself and others.

Each nurse whose name stands on the register as disengaged will be expected to pay all charges incurred in securing her work, and to report promptly to each patient sent her by the register.

The name of no nurse will be retained on the register, the record of whose work has not been satisfactory.

The usual charge for nurses from this school is \$3 per day, except for special cases, when \$25 per week may be charged. No registered nurse is permitted to charge more.

ADMISSION OF PATIENTS.

DISEASES TREATED.

All kinds of *acute, curable, and non-contagious* diseases treated in the wards. Sufferers with chronic and incurable complaints received and retained at discretion, but (with the exception of the "House of Rest for Consumptives" patients) not permanently provided for. None are received as patients who, from the nature of their ailment, would occasion discomfort to their neighbors. The following are inadmissible: Sufferers from contagious disease, cancers of an incurable and offensive nature, epilepsy, opium habit, delirium-tremens, insanity, and venereal disease.

MODE OF APPLYING.

Applicants received in person daily (except Sunday) from 10 A.M. to 5 P.M. Cases of sudden injury, requiring immediate care, received at any hour, and, if need be, without charge.

Applicants *from the city*, too sick to apply in person, will be examined by a physician at their residences.

Applications from *out of the city* should be made in writing to the Pastor and Superintendent. Such communication should enclose a written certificate from a regular physician as to applicant's disease, present condition and symptoms. It should state whether bed in general ward or private room is desired. If latter, at what price and on which of hereinafter-named conditions.

Applicants from out of the city requiring *medical* treatment not ordinarily received.

Applicants requiring *surgical operations* not obtainable at home admitted from any part of the country.

RATES OF BOARD.

GENERAL WARDS.

Board of patients in general wards per week is \$7 for adults and \$4 for children (under twelve years of age), payable each four weeks in advance. Unexpended portion of above refunded at same rate on patient's discharge.

Applicants applying for **FREE** treatment in whole or in part must be suitably certified as unable to pay Hospital rates, and as worthy objects of charity.

PRIVATE ROOMS.

The charitable work of the Hospital is done in the general wards. The income from board and nursing of private patients is applied toward making up deficiency of revenue to support increasing charity work of general wards.

PRICES OF PRIVATE ROOMS.

Single Rooms, from \$3 per day upwards.

Hospital charges in private rooms invariably must be paid each two weeks in advance, and unexpended balance will be refunded at same rate on patient's discharge.

The Superintendent is authorized to make special terms for patients in private rooms requiring extra nursing, and requiring expensive medical and surgical supplies for their treatment.

House Physicians and Surgeons at all times within call, at discretion of nurse.

Laundry work for private patients done at their own expense outside the Hospital.

Diet regulated by physicians' orders, and meals served at regular hours.

AS TO FEES.

No Officer, Nurse, or Servant is allowed to receive any fee or gift from a patient.

The Physicians and Surgeons give their professional services without salary to the Hospital, under the following terms and conditions :

1. They will not receive professional fees under any circumstances from any patient occupying a bed in the wards of the Hospital; neither will they expect or receive such fees from any patient occupying a private room, provided that, in the opinion of the Hospital authorities, ability does not exist on the part of such patient to pay for the services of the Attending Physician or Surgeon, besides paying first the Hospital charges for board and nursing.

2. The Attending and Consulting Physicians and Surgeons are expected to make definite private arrangements as to their professional fees with those patients whom they recommend to the Hospital authorities for their private treatment *before* such patients are sent to the Hospital.

3. The Hospital authorities protect their own Staff from a misuse of their charitable services by recommending any applicant who applies directly to the Hospital for the use of a private room to any member of the Attending or Consulting Staff whom they may select that the above arrangements may be made.

4. Copies of these rules may be shown at discretion to applicants for private rooms, that they, before admission, may designate in which of these ways their means allow them to avail themselves of the privileges of the Hospital.

RULES FOR PATIENTS.

All patients admitted to the Hospital will be required to conform to the rules of the house. Patients receiving charity are expected to show a readiness to oblige one another and to assist in such becoming services in the wards as their health enables them to perform, remembering that they have voluntarily come into a household of which the great law is that of mutual kindness and brotherly love.

1. Profane or indecent language, irreverent behavior at the services of religion, the expression of immoral or infidel sentiments, and the like, are offences for which a patient will forfeit his place in the Hospital. There must be perfect silence in the wards during the religious services, and during the doctor's regular professional rounds. Loud talking, reading, or calling across the ward are not allowed at any time.

2. Patients are not allowed to leave the wards to which they respectively belong, except for the corridors attached to their wards, and the Chapel, without permission. When desiring to go beyond the bounds of the Hospital, patients must obtain a pass and leave it at the Office. Monday is the regular "pass day." Passes are not granted on other days except for special causes, when they must be indorsed "approved" by the Pastor and Superintendent.

3. All wines, spirituous liquors, medicines, fruits, food, or delicacies of any kind, excepting those prescribed and furnished by the Hospital, or furnished by express permission of the Hospital authorities, are strictly prohibited. Any patient receiving such articles irregularly through his friends will make himself liable to discharge. Only such books, pamphlets, newspapers and packages are allowed in the wards as are approved by the Pastor and Superintendent.

4. No patient may purchase, or procure any member of the household to purchase for him, any articles whatsoever without leave to that effect.

5. Patients are expressly forbidden to spit anywhere excepting in their spittoons, or to use chewing tobacco without the permission of the House Physician or Surgeon.

6. Patients must not open or shut any window or register of a ward at their own option.

7. The hour for patients in the wards to retire to their beds is 9 P.M.

8. The Hospital will not be responsible for any property belonging to patients; but there is a safe in the Office where money and valuables may be deposited, for which articles, when so deposited, a receipt will be given.

9. When a patient desires the visit of a clergyman, not in the house, he must signify the same to the Pastor and Superintendent, who may, at his discretion, invite the clergyman, with the understanding that he will confine his visit to the person desiring to see him.

10. No Officer, Nurse, or Servant of the household is allowed to receive any gift or fee from a patient in the Hospital.

REGULATIONS FOR VISITORS.

1. Visitors desirous of seeing the institution will be admitted on Thursdays between ten and twelve, and between three and five o'clock.
2. The friends of patients are admitted to the general wards from ten to twelve o'clock on Tuesdays, Thursdays and Saturdays.
3. Women visitors, unless near relatives, are not admitted into the Men's Wards, nor men visitors into the Women's Wards.
4. All visitors are respectfully requested to leave when the bell rings at the expiration of the visiting hour.
5. The cards of visitors to the private patients will be taken to their rooms, under restrictions imposed by the Attending Doctor, daily (except Sunday), from 10 A.M. to 1 P.M.; from 3 to 5 and from 7 to 8 P.M.; on Sundays from 2 to 3:30 P.M. Such visitors will be expected to leave the rooms of their sick friends during the doctor's visit. They are to leave before the doors of the Hospital are closed at 10 P.M.
6. Sunday is not a visiting day in this Hospital. To accommodate the relatives of the patients in the wards who find it impossible to call on the visiting days, those who attend the Chapel services will be allowed, at the conclusion of public worship, to remain in the wards for a short time. These Chapel services are held at 4 P.M.
7. In cases of extreme sickness special passes will be granted to the immediate relatives of the sick patient.
8. No fruit, liquors or delicacies of any kind whatsoever may be taken by the friends of patients into the wards or private rooms. All such articles must be left at the office, and, if approved by the doctors in charge of the patients for whom the articles are intended, will be delivered.
